Epilepsy, or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c.

This disease consists in a sudden deprivation of the senses, accompanied with a violent convulsive motion of the whole body. It attacks by fits, and after a certain duration goes off, generally leaving the suiferer in a stupor, attended with great weakness and exhaustion of the body.

Doctor Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, the most Skillful Physicians of Europe, as well as those of our own country, have pronounced Epilepsy need no comment,) we would strongly urge every "In looking up a few advertisements for my small incurable. I accordingly left En-France, and returned home in the month of November last, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone, he was restored to Perfect Health. Another semarkable Cure performed by the use of Hart's Vegetable Extract.

Doctor flart:-It is with no small degree of gratifiention that I am enabled to announce to you the complete restoration to health of my daughter, by the use of your Vegetable Extract. At the age of six years, ther age at present is sixteen) she was first attacked with this dreadful malady called Epileptic Fits; and until she commenced taking the Extract, she suffered with attacks of fits, almost incessantly, and so severely as to threaten to drive reason from its throne, and render her insane-Intoric.

Physicians pronounced her incurable, and cauld do sure, when hearing of the remarkable cures performed pectation, as by its use she is free from a most dread ful malady, and restored to Perfect Health.

Teething. Worm, Costiveness, &c., will produce this disorder. In all such cases the Vegetable Extract

is the only medicine which can be relied on with any degree of safety. Mothers who have small children should remember this. MANY ACHILD, the past year, who has suffered with this complaint, and has been given over by physicians to die, has been restored by the use of but one bottle of Hart's Vegetable Extract. The child of William Anderson, North Fourth street, Williamsburgh, aged 20 months, had fits constantly for eight weeks. A consultation of physicians was called, who decided that the case was a hopeless one, and the child must die. Whilst the child was in this dangerous state Mr. Anderson called at my office and obtained a bottle of the Extract, administered it to the child, and the result was a perpect retoration of health.

The son of Mr. Robert McGee, corner of Sullivan and Prince streets, New York, was severely afflicted with fits. In this case also the physicians held a consultation and decided that they could do no more and that nature must effect its own cure, or the boy and that nature must effect its own cure, or the boy and that nature must die. The Vegetable Extract was administered must die. The Vegetable extract was administered and in its resistless career sweeps over the land as a land in its resistless career sweeps over fits was broken, and the boy restored to health. Mr. McGee says, "I shall never again be without the medie ne in my house, if I can avoid it, for fear that some of the rest of my children may be attacked in the same way. I consider the medicine invaluable.

TO MOTHERS AND MARRIED LADIES This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period. "the turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be deayed for several years by using thisemedicine. Not is it less valuable for those who are approaching womanhood, it is calculated to assist nature by quick-ening the blood and invigorating the system. Indeed this medecine is invaluable for all the diseases to

which women are subject. It braces the whole system, renews permanently the natural energies-by removing the impurities of the body-not so far stimulating the system as to produce a subsequent relaxation, which is the case of most medicines taken for female weakness and dis-

DISEASE OF THE HEART, RUPTURE AND DROPSY-

New York, July, 22, 1846. DR. Townsend-Dear Sir : My wite has been afflicted with a terrible rapture for over fifteen years' the greater part of the time. She has been troubled with shortness of breath & great fluttering of the heat, which has been very distressing, and has frequently been unable to leave her bed. The rupture was very large and severe. She tried almost every remedy for such cases with but little benefit. When she had taken but three bottles of your excellent medicine she was entirely relieved of the disease of the heart, and

the rupture has almost entirely disappeared. She has also had the dropsy, and was very much wollen. We had no idea that she could be so beneited, as she had such a complication of diseases. But it has, as strange as it may appear, relieved her of the dropsy. I am aware that this statement is so strange as to appear almost like fiction, but it is sober reality. Your Sarsaparilla is certainly a valuable medicine, and should be used by every one that suffering as we have been. If any disbelieve this account, they are at liberty to call at my house and have ocular demonstration. Yours, respectfully, WILLIAM TOWSER, 1 James st.
